

# WARBURG PINCUS

## Lionel I. Pincus

We are deeply saddened by the loss of our founder and retired chairman Lionel Pincus, who passed away on October 10, 2009 at his home in Manhattan after a long illness. We extend our sympathy to the Pincus family, and our thoughts are with them.

Lionel created a special firm and was a committed steward of its success. For those of us who knew and had the good fortune to work with Lionel, we witnessed first hand how he helped to create and shape the modern venture capital and private equity industry. Together with John Vogelstein, he built a unique and enduring global firm and set the standard for excellence in our industry.

We are fortunate to have learned from Lionel Pincus. His legacy lives on in the values and investment principles of our firm. We will all remember Lionel with great admiration and appreciation.
